SPECIAL DISPATCHES TO THE DAILY VEDETTE.]

**Verdict Against New York City for Riots.**

NEW YORK, Jan. 15th.

A verdict of \$55,000 damages against the City was given in the Common Pleas Court to-day, for the loss of property in the July riots.

### Congressional and other Matters.

WASHINGTON, Jan. 15th.

HOUSE.—Passed an appropriation of \$17,000 to-day to indemnify the owners of the British schooner Ellen for illegal seizure, and for the appointment of an Asst. Secretary of War. This continues Mr. Watson in office.

NEW YORK, Jan. 15th.

A special from Washington to the *Post* says: The House will insist that the price of commutation under the enrollment act shall not be over \$300.

Fernando Wood was before the House Committee on Public Expenditures this morning, to make a statement respecting the New York Custom House.

WASHINGTON, Jan. 15th.

SENATE.—To-day the House bill providing for deficiency of appropriation for paying officers and men, was passed. The bill appropriates \$700,000. The Senate, in Committee of the Whole, proceeded to the consideration of the enrollment bill.

Doolittle proposed an amendment, prohibiting enlisted men from serving as substitutes, except in remnants, from State where they first enlisted; adopted. Clark asked leave to withdraw the amendment allowing volunteers to furnish substitutes; passed. Yesterday, in Committee of the Whole, Nesmith moved that the Senate rescind its action of yesterday in retaining the three hundred dollar commutation. He thought that while the country was looking to the Senate for a feasible measure to secure soldiers, the Senate was amusing the country with schemes how not to do it. 'Twas time to look the matter boldly in the face. The war had been a chapter of accidents, he might say a

comedy of errors. The proposition was rejected. Doolittle moved to amend by making persons who have resided in the United States one year, and have voted, citizens; adopted. Sherman renewed the amendment to substitute \$500 instead of \$300, as the maximum for commutation. Several other amendments were offered, but without taking action, the Senate adjourned.

Two delegations were before the Ways and Means Committee to-day, urging that a tax be laid on crude oil, instead of refined.

The Committee on Reconstruction in the Rebel States will very soon report a bill.

### From our Prisoners at Richmond.

NEW YORK, Jan. 15th.

Special from Washington to the *Post*.—The Baltimore *American* announces that one thousand boxes and barrels have been sent to our prisoners at Richmond. Our prisoners are not now suffering for want of clothing, &c.

### Congressional.

WASHINGTON, Jan. 15th.

SENATE.—To-day Congress introduced a bill amendatory of the Homestead Law, and for other purposes; also presented a resolution inquiring as to the failure of the Overland Mail to California, for the last two months.

CHICAGO, Jan. 16th.

New York 16th. The *World's* special says: The amendment to Sherman's amendment, making the commutation four hundred dollars instead of five hundred, was adopted. The Conscription Act, as it now stands, provides that a drafted man who pays four hundred dollars is exempted until every other man in his district is drafted, when he is again liable. Both clauses are consolidated. The exemptions of an only son of a widow, father of motherless children, are stricken out. The bill is now acceptable to the House Military Committee.

The *Times'* special, says: Authentic information to Government, places Magruder's force in Texas, as not exceeding fifteen thousand; Taylor's and other forces, in Louisiana, not half that number, and are so scattered and transportation so scarce, that they could not be consolidated in less than two months.

It is quite probable that the tax on all manufactured articles will be doubled before the close of the Session of Congress.

No information of a cavalry raid to Leesburg, has been received at Gen. Augers' Head Quarters. Our forces along the Upper Potomac, are only sufficient to protect that line. A large number of carpenters and other mechanics, have been sent from here by Government, to repair the railroads in Tennessee, which will be in complete running order by the opening of Spring.

Gen. Butler will remove his Head Quarters from Fort Monroe, to Norfolk.

Gen. Stoneman has gone West, to report to Gen. Grant.

Chas. A. Dana, formerly of the *Tribune*, will probably be appointed Assistant Secretary of War.

### Financial Estimates.

NEW YORK, Jan. 16th.

The *Tribune* says: The receipts from internal revenue, from July 1st to January 14th, amount to nearly \$48,000,000. With the exception of changes in excise law, the lowest estimates for the second

year are \$142,500,000, while the highest estimates would add twenty-five or thirty million thereto.

### Capture of a Blockade Runner—Loss of Life.

NEW YORK, Jan. 16th.

The *Herald's* letter from the squadron off Wilmington, 9th, reports the chase and destruction, on the 8th, of a rebel blockade-runner, the steamer Dare, by the Montgomery and Aries. Her crew run her ashore, thirteen miles north of Georgetown Light House, S. C. The crew escaped in boats. The crew from Montgomery and Aries boarded and burned her. A boat's crew from the Aries was swamped, in leaving her, and Acting Master Pendleton, of the Montgomery, in charge of a launch, picked up five of them while returning to his ship. He saw others, and turning to save them, his boat was thrown on the beach, where all were captured by the rebel cavalry. The men taken, were Acting Master Pendleton, Engineer George M. Smith, and seventeen of the crew of the Montgomery, and Capt. Clark, Parkman, one ensign and seven of the crew of the Aries. United States schooner George Manichas, next morning went close in shore and shelled the rebel cavalry. The Dare was about 700 tons burthen, and a side-wheel steamer, and totally destroyed. Her cargo apparently was not large, but probably some distinguished rebel persons were on board. She was chased 60 miles.

On Wednesday, Gen. Butler sent an important document to City Point, by a flag of truce, bearing on the subject of the exchange of prisoners. In the meantime he has ordered rebel prisoners to be brought within the lines of his department to await release, which he hopes to effect.

Among the intercepted Lamar Correspondence, is the following to Hastin and Lamar: "Gentlemen: When you go to Paris, call on Mr. Slidell and tell him, from me, to negotiate for a French Protectorate in case of necessity. The people will gladly accept it in the last extremity. With Mexico, France, and the confederacy in alliance and Free trade we could eclipse."

Signed:

G. B. LAMAR.

WASHINGTON, Jan. 15th.

Accounts received to-night from Army of the Potomac, say that the reported movement of Stuart's Cavalry occasions no alarm, as it is not believed that he has a sufficient number of men even for a less arduous duty, than a campaign on our right. If a cavalry movement is progressing in that direction it cannot be of much magnitude. Trains are running to and from the army as usual. No body anticipates any interruption.

### From the Potomac—Interesting General News

NEW YORK, Jan. 15th.

The *Herald's* army specials say: It was reported at Culpepper last evening that the rebel General Stuart, with five thousand cavalry, had crossed the river, far to our right, and reached Leesburg, our forces falling back towards Fairfax. Whether his object is to cut the railway near Bull Run on the Baltimore and Ohio Rail Road, near Point of Rocks, is not known, but in any event, it is quite possible that he will meet with superior forces. The health of the army is quite good. During the late cold spell, five men were frozen to death. Thirty-five men, belonging to the First Mass. Cavalry, captured by guerrillas a few days ago, escaped and returned yesterday. Four men are to be shot for desertion, to-day, Friday.

## Anniversary of the Battle of Bear River.

The Committee (officers of Camp Douglas) appointed at an adjourned meeting, to prepare for a proper celebration of the Anniversary of the Battle of Bear River, presented their report of the exercises to take place on the 29th inst. As the matter was placed in the hands of competent gentlemen, we have no doubt the appointments will be such as will not only give satisfaction to all concerned, but will also be highly interesting. Capt. C. H. Hempstead is selected to deliver an oration on the occasion. The rest of the programme will be published in full, as soon as received from the gentlemen having the matter in charge.

**JUSTICE.**—In our issue of Friday last, in a note to the Legislative report, we expressed some surprise that the author of the bill concerning Mining Interests (Mr. Wandell) had not been named as one of the special committee to whom the bill was referred, as is usual in such cases. In justice to Mr. Speaker Taylor, we are pleased to say that we have since been informed that Mr. Wandell was appointed Chairman of the Committee, but declined serving, for reasons which we presume are entirely satisfactory to him.

**NEW STAFF APPOINTMENT.**—1st Lieut. Stephen E. Jocelyn, 3d Inf'ty, C. V., has been detached from the line and appointed Ass't. Commissary of Musters, of the District of Utah, on the Staff of Brig. Gen. Connor.

The want of such an officer heretofore in this District, has occasioned considerable inconvenience, and we have no doubt the selection of Lieut. Jocelyn will give very general satisfaction.

[COMMUNICATED.]

## The Legislature and the Mines.

Great Salt Lake City, U. T.,  
January 18th, 1864.

*Editor Daily Vedette:*—The reports of the proceedings of the Legislature of Utah, in regard to adopting laws for the purpose of governing the mining interest of the Territory, show a very crude understanding of the real necessities of a mining community, or else it is an attempt to legislate in such a manner as to discourage the development of this most important and valuable source of future prosperity.

The early experience of California and Nevada, show that all special legislation to govern mining claims has only resulted in retarding their development, and that a general mining law to legalize the rules and laws adopted by the Districts has been proven to be the only just legislation.

I do not understand how "Mining Claims shall be deemed personal property, which may be taxed in the same manner as other personal property," when the fee-simple rests in the United States, I could understand how improvements might be taxed, but not undeveloped mining claims. For the legislature to attempt to adopt and fix all the details of mining districts, would eventually bring about the very difficulties that a wise people ought to avoid.

Different localities require different regulations, and it may well be doubted if a mining population, Gentile or Mormon, will pay much attention to any legislation that contravenes common sense and natural justice.

II. Lieut. Jocelyn will immediately report by letter to Col. Washington Seawell, U. S. A., Commissary of Musters at Department Head Quarters, for instructions.

### Amnesty and Prisoners of War---Triumph of the Radicals.

CHICAGO, Jan. 16th.

Washington special, says: While it has been decided that the Amnesty of the President does not extend to prisoners of war as a class, nevertheless he is prepared to give individuals among them its benefits in an examination into their cases to substantiate the propriety of that act on their part.

The Radicals in the Senate Military Committee have thus far triumphed, that committee not agreeing to report Gen. Sherman's nomination favorably to the President. They claim that he can't be conceded and the President is being induced to withdraw it. The House Committee on Expenditures will commence at once an investigation into the New York House frauds. Subpoenas have been sent to Collector Barney and other officials to appear by the first of next week. The Committee is determined to dilate thoroughly this and kindred matters in other departments. The members of the Committee have received numerous letters from New York informing them who to call and where to investigate. The House Military Committee yesterday engaged on the Senate amendments to the Enrollment bill and will probably report on it as soon as it passes the Senate.

#### From Cairo.

CAIRO, Jan. 15th.

United States Marshal, Phillips, sold to a large quantity of cotton captured by the navy under Admiral Porter, bringing into the Treasury fifty-four thousand dollars. The Marshal has already turned over to the authorities as naval prize-money, since he administered the affairs here, about half a million dollars.

A report is received that the rebels in Arkansas are suffering severely from the cold weather, which extended throughout the South.

Kirby Smith, commanding the Trans-Mississippi Department, is ordered North, as the Arkansians and Missourians refuse to go further South. Deserters in large numbers are coming into our lines, and acknowledging the rebel cause hopelessly lost.

#### From East Tennessee.

INDIANAPOLIS, Jan. 16th.

Col. Wilder, of the Mounted Brigade, now here, reports that Gen. Porter's force in East Tennessee, is fully equal to Longstreet's, and so posted that he cannot be successfully attacked. He thinks Longstreet will have no difficulty in maintaining himself where he is, as communication with Lee is open and easy.

#### The Sioux.

ST. PAUL, Jan. 15th.

Gen. Sibley has received a dispatch from Pembina, stating that the British authorities have succeeded in inducing the Sioux to leave the Selkirk settlement. They have been supplied with food, and sent to Turtle Mount. They were on the prairie, during the late cold snap, and large numbers of them must have perished.

#### Important General News.

NEW YORK, Jan. 16th.

At a meeting of the Chamber of Commerce to-day, a letter was received from the First Assistant Secretary of the Navy, of substance as follows: Charges against the Navy Department for building slow steamers are best answered by a comparative public trial, and I am authorized by the Secretary to make arrangements to run one of our vessels against the fastest sea-going side-wheel steamer in the country, foreign or American. She will run

against the same tonnage and draft, in any water. If her competitor is larger, the race to take place in smooth water.

A special to the Washington Post says: Letters received here from Robert J. Walker, now in London, state that a great revolution is gaining in public opinion in England in reference to the financial strength of this Government. He also says that a heavy tide of immigration will set into this country in the spring, and with Congressional action, it may be swelled to half a million persons during the year. He proposes that Congress shall enact that no emigrants shall be liable to conscription during the year. This would disarm the suspicion abroad.

A considerable number of Congressmen are sick, not many of them seriously, however.

By the steamer Moonlight, from Matamoros the 1st: About 75 vessels were off the bar, and the weather was so bad they could not be lightened off.

The Post has the following, which savors somewhat of humbug: A Union refugee who arrived in this city recently from Richmond, asserts that on Christmas morning, at an early hour, persons passing by the house of Jeff. Davis, were surprised to see standing immediately in front of his door a coffin, with a rope significantly laid on the top. These articles were taken away as soon as discovered by the servants, but were seen by many persons.

#### The Arkansas Delegation---Congressional.

CHICAGO, Jan. 17th.

A special from Washington, says: Ex-rebel Gen. Gantt, of Arkansas, arrived there yesterday at the head of a delegation of prominent loyalists of that State, on a mission of reconstruction for a State government, which was looked upon by the Administration as of the highest importance. Gen. Gantt, it will be recollected, left the Confederate service some time ago and took the oath of allegiance and ever since has been a Radical Unionist. It is understood that more than one-tenth of the voters at the last Presidential election are ready in Arkansas to re-construct a State government, but as yet, indicated no particular plan.

The Senate debated all the afternoon on the Conscription Act, but came to no conclusion. Trumbull offered an amendment requesting the President to call out and equip a hundred thousand men for one hundred days, with the single object of driving the rebels from Virginia and releasing Union prisoners at and around Richmond. Nesmith moved to insert three years instead of one hundred days. Amendment adopted. Amendment as amended was then rejected. The House was not in session yesterday.

#### Western Missouri Cleared of Guerrillas.

ST. LOUIS, Jan. 17th.

News from Springfield, Missouri, says, hundreds of deserters from Price's camp, are on the south side of White River, in the direction of Batesville. They are being hunted by rebel squads, several of whom have been captured by our forces, under Gen. Sanderson. For the first time since the war commenced, the western tier of counties is clear of guerrillas.

#### The Exchange.

FORTRESS MONROE, Jan. 16th.

A flag of truce steamer arrived this afternoon, from City Point. Present indications admit no doubt that if the exchange of prisoners remain in the hands of Gen. Butler, satisfactory exchange will be effected.

#### Iowa Legislature.

DES MOINES, IOWA, Jan. 16.

The Legislature in Joint Convention to-day, re-elected Jas. W. Grimes U. S. Senator, by a vote of 28 to 6.

### Railroad Accident.

INDIANAPOLIS, Jan. 17th.

Accident on the Central Railroad near Cambridge City, Friday. Nineteen persons were more or less injured. None of them, it is supposed, mortally.

### From Charleston---Vigorous Bombardment.

FORTRESS MONROE, Jan. 16th.

The Richmond Sentinel of yesterday, has the following:---Charleston, 11th. Three shells were thrown into the city this morning and six this afternoon. On the 10th, eighteen shells were thrown into the city. The enemy have opened two more embrasures, one bearing on the city and the other on James' Island.

CHARLESTON, 13th.

The bombardment of the city has been continuous since the last report. A number of transports filled with troops have been observed going south. An increased fleet at Hilton Head is reported.

CHARLESTON, Jan. 14th.

The enemy kept up a lively shelling all day. Since Tuesday at eight o'clock, four hundred and seventy-one shells have been thrown at the City, causing some damage but no casualties. The enemy unmasked two or three more Parrott's at Gregg. Shelling still heavy this evening.

## Interesting General News.

A special to the *Herald* says: Wm. H. White, an army contractor, has been sentenced to pay a fine of three thousand dollars and be imprisoned not exceeding two years, as the Secretary of War may decide, for wilful neglect of duty in delivering inferior haversacks. Fourteen rebel officers, including J. S. Lee, a nephew of Gen. Lee, have been sent from the old Capital to Ft. McHenry for confinement.

The *Times'* special says: The National Union Committee, appointed by the Chicago Convention, has been summoned to meet here Feb. 2d.

The statement that Longstreet has been reinforced from Lee's army is untrue. A letter from a prominent general officer in the army of the Potomac, says Lee's army, instead of being depleted, is being increased by conscripts. The writer says the rebels are using strenuous efforts to organize and recruit their cavalry for offensive operations in the spring. The rebel army is encamped between Orange Court House and Gordonsville, and is well provided with provisions, though suffering for clothing. Private information from rebel sources, state that Charleston is being gradually destroyed by the fire of our batteries. On the 26th of December, two blocks of buildings on King street, belonging to the estate of the late Senator Butler, were destroyed. Several large warehouses, occupied by the rebel Government and filled with army supplies, were destroyed about the same time. The city is almost deserted, except by the military. The poorer classes have erected temporary accommodations out of range of our fire. Great destitution prevails among them.

A bill will soon be reported by the House Naval Committee, providing for the distribution of prize money, to officers and crew of the Mississippi Flotilla.

*World's Special:* The Secretary of the Treasury has under consideration the question submitted by numerous parties living along the border of the States of Tennessee and Mississippi, for the unrestricted sale of cotton. An immense quantity can easily be made available. A delegation of tobacco men, before the Ways and Means Committee, agree that a tax ought to be made on the manufactured article but not on the leaf. The Committee is determined to strike out of the Naval Bill all appropriations for iron clads.

*Tribunes' special:* About a thousand rebellious Sioux, fleeing from the Union army in Minnesota, are causing much trouble in the vicinity of Selkirk, British America. Sometime ago permission was asked of the British Government to cross the line with our troops to prevent such outrages. The permission was declined.

Gov. Cumming, formerly of Utah, on applying for his last quarters salary, was notified by the U. S. Treasurer that he should not pay him unless he took the oath of Allegiance, inasmuch as he had been charged with disloyalty.

### The Pirate Florida.

NEW YORK, Jan. 15th.

The *Times'* Paris letter says: The pirate Florida is about ready to sail from Brest. She lies in the bay very close to the Union gun boat Kearsage, it is not probable that the latter will be able to stop her, for if in port when the Florida sails, the twenty-four hours rule will be applied; while if she remains outside, the Florida, which is faster than the Kearsage, can easily steal out some dark night.

MOSBY CREEK, Tenn., Jan. 15th.

A detachment of Col. McCook's cavalry attacked the eight and eleventh Texas yesterday, killing fourteen and capturing forty-one.
